PROFILE

Sixth-form student at Redland Green School with **straight 9s in GCSE Maths, Physics, Chemistry, Biology and English Language**. Using AI coding assistants, I have designed, built and released three AI and data tools that people can try today. This year I am learning to code properly, starting with Python, so I can explain every part of what I build. I plan to study AI, machine learning or computer science at university.

EDUCATION

Redland Green School, Bristol · Sixth Form (Year 12) — 2026 – present

A levels: Mathematics, Further Mathematics, Computer Science, Physics

GCSEs and Level 2 Certificate in Further Maths — 2026 · provisional

Maths 9	Physics 9	Chemistry 9	Biology 9	English Lang. 9
Further Maths 8	Statistics 8	English Lit. 8	Geography 8	French 5

PROJECTS

Upcurrent · AI trends dashboard — Oct 2026

Free dashboard that checks GitHub, Hugging Face, arXiv, Hacker News, lab blogs and news every 30 minutes. It gives each item a 0–100 momentum score, flags names that break out across three or more sources, and compares hype with real usage.

12+ APIs and feeds · scheduled pipeline · GitHub Pages

Dormer · AI companion for Mac — Sep 2026

Desktop AI assistant packaged as a native download for Apple Silicon Macs on macOS 15+, with its own landing page.

macOS app · landing site on Vercel

Rift · market research from real complaints — Jun – Jul 2026

Searches seven sources such as Reddit, app reviews and Hacker News for repeated customer complaints. It clusters them with AI, scores business ideas with a fixed formula, and links every idea back to its source posts.

Next.js · AI clustering · weekly email alerts · Vercel

Skyline Ready · Android storage tool (prototype) — Jun – Jul 2026

Early prototype for creators: forecast storage before a shoot, then move media off the phone with SHA-256 checks before anything is deleted. I stopped development to focus on other projects.

EXPERIENCE

EY · Work experience week — Nov 2026

Confirmed placement, 9–13 Nov, learning how a large firm works across finance and AI.

Secondary school · Work experience — Year 10

Work experience placement at a secondary school.

COMPETITIONS & ACTIVITIES

- **UKMT Senior Maths Challenge** · Oct 2026
- **MEI Ritangle** maths competition · Oct–Dec 2026
- **Bebras** computing challenge · Nov 2026
- **British Informatics Olympiad** · 2026–27
- **BPhO Computational Challenge** · 2027
- **Basketball** enrichment · current

HOW I BUILD

AI-assisted development · Product design · Prompting and iteration · Vercel · GitHub

LEARNING NOW

Python (A-level CS) · HTML, CSS, JavaScript · APIs and data pipelines
